Q Series

What Comes with Q Series Under Mirror Pucks

The Under Mirror Puck is a popular feature for side visibility on a vehicle. Let me show you what the Q Serial and Q 3-Mode Under Mirror Puck comes with. Every Under Mirror Puck comes with a twisted 1-ft cable, offering you 3 programmable modes on the Q 3-Mode and 2 serial wires on the Q Serial. Again, a closer look here you have power and ground plus 2 serial wires on the Q Serial series, and you have 3 programmable modes on your Q 3-Mode series. Every Under Mirror Puck comes standard with the universal installation kit. We also offer 5 vehicle specific brackets that support over 10 vehicle make and models. Keep in mind that although you need an Under Mirror Puck on both the driver and passenger side, they are not sold as a pair. They're sold as individual units, so make sure you order them in combinations of 2 when placing your orders. That concludes the basics of what comes with the Under Puck series.
