FLEET SYNQ

Controllers & Sirens

PART #	SYNQ-FLEET
DIMENSIONS	3.94" x 2.62" x 0.80"
POWER	From SynQ Relay
CURRENT DRAW	15mA
WEIGHT	14.1 oz
CABLE LENGTH	15ft (8-pin)
ANTENNA LEAD	9.8ft (3m)
COMPATIBILITY	SynQ-S, -R, -H
WARRANTY	2 Years
MOUNTING	Interior only

CERTIFICATIONS:

2 YEAR WARRANTY

DESCRIPTION:

Fleet SynQ keeps every SynQ-equipped vehicle in a fleet flashing in unison. Its GPS antenna gives each SynQ Relay the same time source, so vehicles running the same flash pattern stay in step within milliseconds, with no limit on how many vehicles or how far apart they are. It plugs into the relay's 8-pin Fleet SynQ port, takes power from the same cable, and needs no software setup.

- GPS time sync, no software setup
- Vehicles flash in unison, within milliseconds
- Syncs vehicles running the same flash pattern
- No limit on vehicle count or distance
- Re-syncs automatically when GPS returns
- GPS lock LED visible through the clear cover
- Plugs into the SynQ Relay's 8-pin Fleet SynQ port
- Powered through the 8-pin cable, no extra wiring
- Works with SynQ-S, SynQ-R, and SynQ-H
- Requires relay firmware 7.1.0 or later
- Includes module, 15ft 8-pin cable, & GPS antenna
- Interior mount only, #6 screws not included
