DESCRIPTION:

The Typhoon 200W Handheld is a compact siren and controller bundle designed for quick, one-handed operation in high-pressure environments. Delivering 200 watts of clear, powerful sound, it's ideal for emergency and pursuit vehicles with limited cabin space. The handheld controller connects directly to the siren amplifier, providing reliable performance and easy access to essential functions.

- 36 programmable siren tones
- 8 grouped outputs [3.5A per output]
- Auxiliary buttons programmable as on/off or momentary
- Integrated 2 output wigwag capability [for lights]
- Integrated microphone
- 7 dedicated buttons for siren tones and programmed as momentary or on/off
- Air horn, park-kill, radio rebroadcast capabilities
- 15ft mic cable length
- Volume control
- Backlit LED buttons
- Purchase includes Typhoon 200W siren, controller, dash mount bracket, & legend sheet
- Compatible with most emergency lights
